**Short intro**

For more than 180 years, VUB has helped build a better society as an innovative, free-inquiring and critical-thinking university. We are linked to the world from our international capital city, Brussels. A never-ending quest for knowledge, insight and enlightenment form the red thread in all we do in education, research and social commitment. With 4 campuses, 16,000 students and 8 faculties, we continue to advance our very personal and democratic approach which enables all members of the VUB community to grow, so they can successfully take up their roles in the world of today and tomorrow.

Welcome to VUB. Welcome to Brussels!

“During my exchange at VUB in the beautiful, multicultural & diverse city of Brussels I practised theoretical notions we got in class in some highly equipped labs, and I had the chance to put my name on some very interesting engineering projects. I did an internship in Brussels, and graduated as an Aerospace Engineer. Everything I experienced during my exchange will stay with me forever: an exchange is not a semester of your life; it’s a life in one semester!”
